

COURSE #2

Understanding Sutures and Flap Designs for General Dentists

ATLANTA, GA

SUNDAY, JULY 16, 2023 • 8:00AM-12:00PM

PHOENIX, AZ

SUNDAY, SEPT. 10, 2023 • 8:00AM-12:00PM

ST. LOUIS, MO

SUNDAY, OCT. 15, 2023 • 8:00AM-12:00PM

**4 Hr. Hands-On Workshop
Plus: 2 Hr. Online Webinar**

(Pre-Requisite prior to hands on course)

Hands-On Course Capacity : 18 Students

**6
CEU**

COURSE DESCRIPTION:

This course is under the direction of Thomas G. Wiedemann, MD, PhD, DDS

Oral Surgery procedures are an integral part of everyday dental practice. General Dentists perform extractions, periodontal surgery and implant placements that often require specific suturing skills. However, some clinicians may experience challenges such as suture loosening, flap dehiscence, tearing, and the inability to stabilize flaps. Improper suturing can lead to complications and even treatment failures. Whether dentists have been practicing for years or a relatively short period of time mastering suturing and soft tissue management is an essential skill that will predictably improve the final post-surgical results. The goal of this hands-on course is to train general dentists in predictable and correct suturing techniques and flap designs. Attendees will learn about different types of suture material and needle configuration and indications for their use. The hands-on portion of the course will include lots of firsthand "over the shoulder" tips, tricks, and instructions. Participants will be confident with different suture types and experience the exercise of the most commonly used suturing techniques and flaps in dental practice. Doctors at any level who are interested in improving their suturing skills will be provided with practical information on how to suture properly and improve surgical treatment outcomes.

LEARNING OBJECTIVES:

- Comprehend predictable wound healing, suture mechanics and the importance of correct suturing.
- Select the proper threads, needles, and hand instruments.
- Know the armamentarium needed to facilitate surgical sutures in the mouth.
- Understand why and how to choose a particular type of suture material.
- Learn to perform and apply the most useful suturing techniques in diverse clinical situations and understand the theory of these different suturing techniques in surgical exodontia, bone grafting, implants, clot and membrane stabilization, primary closure
- Discover how to avoid the most common suturing mistakes.
- How to deal with suture challenges and complications
- Understand principles of wound healing and flap design
- Perform full-thickness and split-thickness flaps on a pig-jaw, including a GBR-procedure and the use of different types of classic and modern suture techniques as related to pre-implantological extractions
- Perform other frequent and common oral surgery procedures in the general dental practice
- Allow participants to refine and update all surgical skills

SUTURES & FLAP DESIGN COURSE SCHEDULE

Registration and Lecture

on suture techniques.....8:00 am - 9:00 am

Suture practice on suture pad 9:00 am - 10:00 am
classic/basic and advanced suture techniques

Live Demo 10:00 am - 12:00 pm

COMPLETE 2023 SCHEDULE OF COURSES

Saturday, June 10, 2023 Las Vegas, NV	Friday - Sunday September 8-10, 2023 Phoenix, AZ	Saturday November 11, 2023 Austin, TX
Saturday - Sunday July 15-16, 2023 Atlanta, GA	Saturday, September 23, 2023 New Orleans, LA	Saturday, November 18, 2023 New York City, NY
Saturday, August 12, 2023 Dallas, TX	Saturday, September 30, 2023 Delray Beach, FL	Saturday, December 2, 2023 Orange County, CA
Saturday, August 26, 2023 Los Angeles, CA	Saturday - Sunday October 14-15, 2023 St Louis, MO

Extraction & Oral Surgery for General Dentists

2 DAYS OF HANDS-ON COURSES

3 LOCATIONS:

ATLANTA, GEORGIA

Saturday & Sunday • July 15 & 16, 2023

Westin Hotel,
Address - TBD

PHOENIX, ARIZONA

Saturday & Sunday • July 15 & 16, 2023

JW Marriott Phoenix Desert Ridge Resort & Spa
5350 East Marriott Drive, Phoenix, Arizona 85054

ST. LOUIS, MISSOURI

Saturday & Sunday • Oct. 14 & 15, 2023

Renaissance St. Louis Airport Hotel
9801 Natural Bridge Road, St. Louis, Missouri 63134

These courses are under the direction of
Thomas G. Wiedemann, MD, PhD, DDS

Office: 813-444-1011 • Fax: 813-422-7966 • www.goldmandental.org

COURSE #1
Modern Advanced Atraumatic and Surgical Extraction Techniques, Complications Management, Socket Grafting, GBR and Other In-Office Oral Surgery Procedures for General Dentists

ATLANTA, GA
 SATURDAY, JULY 15, 2023 • 8:00AM-5:00PM
PHOENIX, AZ
 SATURDAY, SEPT. 9, 2023 • 8:00AM-5:00PM
ST. LOUIS, MO
 SATURDAY, OCT. 14, 2023 • 8:00AM-5:00PM

One Day Hands-On Workshop Plus: 2 Hr. Webinar
 (Webinar Pre-Requisite prior to hands on course)
 Hands-On Course Capacity: 10-25 Students

10 CEU

COURSE OBJECTIVES:

The course consists of lectures and hands-on training on porcine mandibles and is under the direction of Thomas G. Wiedemann, MD, PhD, DDS,

LEARNING OBJECTIVES:

By the end of the course doctors will be able to:

- Understand and apply practical working knowledge in non-surgical and surgical techniques used in modern exodontia
- Apply and select specific instruments for minimally invasive and alveolar ridge protecting extraction procedures to facilitate immediate dental implant placement
- Manage common real-life complications associated with tooth extractions
- Analyze and anticipate surgical challenges in tooth extractions
- Feel comfortable in risk assessment in medically compromised patients requiring tooth extractions
- Perform current simple protocols of GBR, including socket preservation, as related to pre-implantological extractions
- Perform other frequent and common oral surgery procedures in the general dental practice
- Allow participants to refine and update all surgical skills

Dr. Thomas Wiedemann
 MD, PhD, DDS

BIOGRAPHY:

Thomas G. Wiedemann, MD, PhD, DDS, Clinical Associate Professor and full-time faculty at New York University, College of Dentistry, Department of Oral & Maxillofacial Surgery. Prof. Wiedemann's career consists of more than 25 years of surgical and educational experience in an academic setting and successfully operating a private practice providing the full spectrum of Oral & Maxillofacial Surgery and Implant Dentistry. He has special interests in dental emergency care, pain management, minimal invasive surgical strategies and techniques of the full scope of Oral & Maxillofacial Surgery. He has acquired extensive expertise in implant surgery with multiple implant systems since 1995. He is well versed in innovative concepts of alveolar ridge augmentation and reconstruction and soft tissue regeneration, CBCT guided- and piezo-surgery. He is the author of many publications, speaker in national and international conferences on oral surgery and implantology related topics and serves on the editorial board of several renowned and peer reviewed scientific journals.

Surgical Extraction, Suturing & Flap Design Courses

Atlanta, GA • Sat-Sun, July 15 -16 Phoenix, AZ • Sat-Sun, Sept. 9-10 St. Louis, MO • Sat-Sun, Oct. 14-15 2023

2 HOUR WEBINAR

Pre-requisite to hands-on course & should be reviewed by all participants in preparation and prior to the course.

The 2 Hour webinar includes:

- Guidelines for the preoperative assessment of common medical conditions relevant for oral surgery procedures
- Provides preoperative clinical and radiographical evaluation criteria of different tooth and bone conditions prior to tooth extractions and advanced local anesthesia techniques relevant in the surgical management of acutely infected teeth
- Implications and relevance of the informed consent

Hands-On Workshop One Day Seminar Schedule

Registration8:00 am - 8:15 am	Lunch Break 12:30 pm - 1:30 pm
Lecture8:15 am - 9:30 am Traditional and minimal traumatic extraction techniques, armamentarium selection in modern atraumatic exodontia, principles of surgical extraction techniques: flap designs, sectioning, suture techniques, documentation, frequent minor oral surgery procedures in the general dental practice	Lecture 1:30 pm - 2:30 pm Prevention & Management of relevant real-life surgical complications in exodontia
Lecture9:30 am - 10:15 am Concepts of bone defect management and socket grafting in the dental practice, indication of various graft materials	Live Demonstration & Hands-On Training 3:00 pm - 5:00 pm Flap designs, suture techniques, bone defect management of extraction sockets, minor oral surgery procedures: frenectomy, vestibuloplasty, biopsy, incision and drainage etc... Q&A, Tips & Tricks
Hands-On 10:30 am - 12:30 pm Non-surgical, surgical and minimal invasive extraction techniques	Materials, instruments and supplies are included - Plus: 2 Hour Webinar Pre-Requisite to Hands-On Course: The webinar should be reviewed by all participants in the preparation and prior to the course.

PRICING FOR BOTH EXTRACTION & SUTURE COURSES

EARLY BIRD SPECIAL (Up to 30 Days Prior to Event)	REGULAR PRICE (30 Days or Less Prior to the Event)
<input type="checkbox"/> Extraction Course \$895	<input type="checkbox"/> Extraction Course \$995
<input type="checkbox"/> Suture Course \$395	<input type="checkbox"/> Suture Course..... \$495

REGISTER FOR BOTH COURSES AND SAVE \$100.00

Attendees will also receive:
30% OFF Instruments
\$1,500 OFF Mectron Piezo Touch
FREE MEMBERSHIP in the Western Society of Periodontology

ADA C.E.R.P.® Continuing Education Recognition Program

GAM is an ADA CERP® recognized education provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.
