### Courses Presented By:

### Emergency Medical Consultants

Emergency Medical Consultants, Inc. is a leading Nationwide provider of quality Simulation Training programs dedicated to the dentists as well as the dental office. Based in Florida, their instructors are experts in their fields: doctors, nurses, paramedics, EMTs, etc. They have been providing Dental Training and Emergency Simulation for over 25 years. Their goal is to provide the simulation training you need in a fun, relaxed, and interactive atmosphere, all dedicated in the name of patient safety and emergency readiness.

**John B. Roberson**  
**DMD, FACD, FICD, FICOI, FIAOMS**  
**Developer of R.E.A.D.Y. Program**

Roberson is a Diplomate of the National Dental Board of Anesthesiology. He has Fellowships in American College of Dentists, International Congress of Oral Implantologists, American Dental Society of Anesthesiology, International College of Dentists and Pierre Fauchard Academy. He writes and lectures Nationwide extensively about Medical/Sedation Emergencies and Emergency Drugs in the Dental Office. He co-authored a book on medical emergencies, has over fifty (50) online courses on medical emergencies, sedation emergencies and pediatric emergencies along with almost 100 articles on the subject. He is dedicated to Patient Safety in the dental office.

# S.E.A.M. Training Program (Sedation Emergencies & Airway Management)

Sedation Emergencies & Airway Management Training program is a unique Hybrid program dedicated to the dentist/specialist and their team that does any form of sedation. Safe Sedation, Best Practices and Patient Safety are our top priorities!

**NO ONE SHOULD DIE IN A DENTAL OFFICE!**

SEAM consists of Three parts:

- Part 1: Pre-arrival Online Courses,**
- Part 2: In-Person Didactic Hands-On Training**
- Part 3: Team Preparational Distance Learning**

SEAM is a two-year program for the dentist AND their staff! Team training is the key to handling a sedation/medical emergency. No one should die in a dental office!

**Pre-Arrival Online Courses:** Before your arrival you will receive several online courses that will need to be completed. These are Patient Red Flags, Sedation Management of the Medically compromised patient and Sedation/Medical Emergency Drugs

**In-Person Didactic Program** consists of an all-day intense training. The dentist can choose Saturday only as their training day for this program. The morning portion is dedicated to Sedation Emergencies for all our dentists. This will be recognizing and managing sedation emergencies, including but not limited to Respiratory Emergencies, Laryngospasm, Cardiac Events, Stroke/ Syncope, Seizures, and Anaphylaxis Allergic Reaction. The afternoon portion is dedicated to Airway Management and Emergencies. The practitioner will be exposed to the airway hierarchy through advanced skills stations ending with cricothyrotomy.

If the dentist requires **ACLS Renewal**, this will take place on Friday 1-6 pm. This is an add-on option if dentists need to renew their ACLS.

Then comes **TPDL** or **Team Preparational Distance Learning**.

The dentist and their staff will receive Mock Medical/Sedation Emergency Drills worth one hour of CE each. These mock drills can be done as soon as possible, or the team may spread them out over the two-year period. Upon completion of each mock drill, the participant will receive a CE certificate worth one hour. Please see below for the list of Mock Drills you and your team will receive. Other online courses for the staff will be:

- **Medical Emergency Workshop for the dental team**
- **Patient Red Flags**
- **Sedation Management of the Medically compromised patient**
- **Sedation/Medical Emergency Drugs**

Once your staff has completed all the SEAM courses and Mock Drills, they will receive their own SEAM Certificate of completion. Over 40 hours of CE.

Finally, the SEAM Handouts. You will be provided with 13 handouts that are the blueprint for establishing medical/sedation emergency preparedness for your office.

We recommend you assign one of your staff members as the SEAM Safety officer. They will be responsible for making sure implementation of these handouts takes place within the office.

When your two-year period is nearing its end, you will be notified of renewing again.

# P.S.E.A.M. Training Program (Pediatric Sedation Emergencies & Airway Management)

Pediatric Sedation Emergencies & Airway Management Training program is a unique Hybrid program dedicated to the dentist/specialist and their team that does any form of sedation involving pediatric patients. Safe Sedation Best Practices and Patient Safety are our top priorities!

**NO CHILD SHOULD DIE IN A DENTAL OFFICE!**

PSEAM consists of Three parts:

- Part 1: Pre-arrival Online Courses**
- Part 2: In-Person Didactic Hands-On Training**
- Part 3: Team Preparational Distance Learning.**

PSEAM is a two-year program for the dentist AND their staff! Team training is the key to handling a sedation/medical emergency. No one should die in a dental office!

**Pre-Arrival Online Courses:** Before your arrival you will receive several online courses that will need to be completed. These are Pediatric Medical/Sedation/Airway Emergencies and Sedation/Medical Emergency Drugs

**In Person Didactic Program** consists of an all-day intense training. The dentist can choose Saturday only as their training day for this program. The morning portion is dedicated to Sedation Emergencies for all our dentists. This will be recognizing and managing sedation emergencies, including but not limited to Respiratory Emergencies, Laryngospasm, Cardiac Events, Stroke/ Syncope, Seizures, and Anaphylaxis/Allergic Reaction. The afternoon portion is dedicated to Airway Management and Emergencies. The practitioner will be exposed to the airway hierarchy through advanced skills stations. If the dentist requires **PALS Renewal**, this will take place on Friday 1-6 pm. This is an add-on additional cost option if dentists need to renew their PALS (American Heart Association Curriculum/Certification). Pre course required.

Then comes **TPDL** or **Team Preparational Distance Learning**. The dentist and their staff will receive Mock Medical/Sedation Emergency Drills worth one hour of CE each. These mock drills can be done as soon as possible, or the team may spread them out over the two-year period. Upon completion of each mock drill, the participant will receive a CE certificate worth one hour. Please see below for the list of Mock Drills you and your team will receive. Other online courses for the staff will be:

- **Medical Emergency Workshop for the dental team**
- **Sedation/Medical Emergency Drugs**
- **Pediatric Medical/Sedation/Airway Emergencies**

Once your staff has completed all the PSEAM courses and Mock Drills, they will receive their own PSEAM Certificate of completion. Over 40 hours of CE.

Finally, the PSEAM Handouts. You will be provided with 13 handouts that are the blueprint for establishing medical/sedation emergency preparedness for your office.

We recommend you assign one of your staff members as the PSEAM Safety officer. They will be responsible for making sure implementation of these handouts takes place within the office.

You are receiving medical emergency mock drills because pediatric patients are brought to your office by adults.

When your two-year period is nearing its end, you will be notified of renewing again.
