COURSE #2

# Management of Peri-Implant Diseases

16 HOURS OF HANDS-ON CONTINUING EDUCATION

SAT & SUN, AUGUST 15-16, 2026

8:30am-6:30pm • Tampa, FL

*The aim of the lecture is to present concepts in implant dentistry, which prevent the peri-implant inflammatory reactions and provide crestal bone stability in a long-term. In this presentation, the speaker will try to demonstrate characteristics of the modern implant designs to stabilize and control the peri-implant bone loss. He will also present prosthetic concepts in implant therapy, which optimize the plaque control.*

In addition, various treatment protocols controlling the peri-implant crestal bone loss after grafting procedures, maintaining the peri-implant soft and hard tissue stability will be presented. And last but not least, the various treatment options of the peri-implant bone loss using regenerative procedures with long-term success will be illustrated using high number of clinical examples.

### Learning Objectives:

- To present the different options of peri-implantitis therapy
- To demonstrate how to control the crestal bone loss
- To highlight innovative clinical opportunities for the treatment of peri-implant diseases for general practitioners

### Lecture Topics:

- Differential Diagnosis of Peri-implant Mucositis and Peri-implantitis
- Crestal Bone Loss: Etiology and Management
- Systemic Diseases Associated with Peri-implantitis
- The Role of the Peri-implant Soft Tissues
- Decontamination of the Implant Surfaces
- Bone Grafting around Implants for Implant Success
- Corrosion and Titanium Nanoparticles
- Implant Surface Hydrophilicity Improvement
- Lasers in Peri-implantitis Therapy

### Hands-On Exercises

- Soft tissue management around implants
- Bone grafting around implants
- Implant Surface Decontamination
- Laser-Assisted Technology to Decontaminate and Improve Surface Wettability

### Course Book

**Saving Dental Implants**  
Edited by Georgios E. Romanos

Peri-Implant Disease Course Scan

## TWO 2-DAY PROGRAMS

*Intensive hands-on format equivalent to three days*

Each attendee will perform each procedure up to 2 times under supervision on pig jaws and other simulations (Each attendee will perform up to 22 tasks)

**Tuition fee per person:**

### SOFT TISSUE COURSE

**EARLY BIRD**  
(30 days prior to course)  
**\$1795**

**REGULAR PRICE**  
(Less than 30 days prior to course)  
**\$1995**

### PERI-IMPLANT COURSE

**EARLY BIRD**  
(30 days prior to course)  
**\$1745**

**REGULAR PRICE**  
(Less than 30 days prior to course)  
**\$1895**

**Register at: [www.goldmandental.org](http://www.goldmandental.org) or call 813-444-1011**

Goldman Dental Management Nationally Approved PACE Program Provider for FAGD/MAGD credit. Approval does not imply acceptance by any regulatory authority or AGD endorsement. 10/1/2025 to 9/30/2029. Provider ID# 412781

## Soft Tissue Management for the Restorative Dentist & Management of Peri-Implant Diseases

*A Premier Two-Day Event that Is Offered by A World-Renowned Specialist in Bone and Soft Tissue Regeneration*

COURSE #1

### Soft Tissue - Innovative Surgical Techniques for Restorative Dentists

*This action-packed extraction course, with multiple hands-on sessions and lectures, will provide a step-by-step blueprint for successful Soft-Tissue and Surgical techniques*

SAT & SUN, AUG. 1-2, 2026 - 8:30am-6:30pm • Cincinnati, OH

LABOR DAY EVENT

FRI-SUN, SEPT. 4-6, 2026 • Asheville, NC

COURSE #2

### Management of Peri-Implant Diseases

*The aim of the lecture is to present concepts in implant dentistry, which prevent the peri-implant inflammatory reactions and provide crestal bone stability in a long-term.*

SAT & SUN, AUGUST 15-16, 2026

8:30am-6:30pm • Tampa, FL

Courses Presented by:

## GEORGIOS E. ROMANOS

DDS, PhD, Prof Dr med dent

Dr. Romanos is a Professor of Periodontology in New York and Professor (Prof. Dr. med. dent.) of Oral Surgery in Germany; Fully trained in Periodontics (USA and Germany), Prosthodontics, and Oral Surgery (Germany); Diplomate by the American Board of Periodontology; Board Certified in Oral Surgery/Implant Dentistry (Germany); Past President of the Academy of Osseointegration Foundation and the Implantology Research Group of the IADR; Fellow of American Assoc. for Dental Research, the Academy of Osseointegration, Int. College of Dentists, ICOI, Pierre Fauchard Academy; Great of NY Academy of Prosthodontics, Intern. Academy for Dental Facial Esthetics and the American College of Dentists. He has global educational and research activities, author of more than 500 publications, top 2% of scientists worldwide according to the AD scientific index; editor and co-editor in eight books; >700 lectures in more than 50 countries; Recipient of the Distinguished Scientist Award from the American Academy of Periodontology (AAP), the Distinguished Scientist Award for Prosthodontics and Implant Research from the IADR, the Outstanding Educator and Maiman Research Award from the Academy of Laser Dentistry; h-Index: 88; >26,000 citations.

COURSE #1

# SOFT TISSUE MANAGEMENT

## Innovative Surgical Techniques for Restorative Dentists

18 HOURS OF HANDS-ON CONTINUING EDUCATION

SAT & SUN, AUG. 1-2, 2026 - 8:30am-6:30pm • Cincinnati, OH

LABOR DAY EVENT

FRI-SUN, SEPT. 4-6, 2026 • Asheville, NC

*Clinicians will learn when, why and how to proceed in surgical periodontology and oral surgery utilizing innovation in surgical dentistry.*

Practice of Incisions and Flap Elevation, Crown Lengthening procedures, Flap Closure/Advancement, Partial Thickness Flap, Management of Surgical Complications, Bone Grafting and Laser-Assisted Periodontal Applications. This action-packed extraction course, with multiple hands-on sessions and lectures, will provide a step-by-step blueprint for successful Soft-Tissue and Surgical techniques with hand instruments, piezoelectric devices and lasers.

Dr. Romanos will provide pre-op patient evaluation and safe patient selection and you will leave prepared to return to your practice and immediately provide these new techniques and procedures. You will learn how to select and demonstrate proficient use of the appropriate armamentarium to determine and demonstrate case-appropriate basic and advanced suturing techniques. The course has been carefully designed to integrate didactic, visual aides, and extensive hands-on attendee participation with a wide range of different exodontia and grafting procedures for each individual patient.

### Surgical Techniques - discover the artistry behind:

1. Precise Incision Types and Armamentarium Utilization
2. Advanced Suturing Techniques
3. Full- and Split-Thickness Flap: Indications and Hands-On Techniques
4. Periosteal Releasing Incision for Flap Advancement
5. Pre-Prosthetic Surgical Procedures: Frenectomies, Vestibuloplasties

### ADVANCED SURGICAL DENTISTRY

#### Course #1 - Soft Tissue Management

**A Premier Two-Day Event that is Offered by A World- Renowned Specialist In Bone and Soft Tissue Regeneration.**

**FACULTY:**

**Prof. Dr. Georgios Romanos  
DDS, PhD, Prof. Dr. med. dent.**

6. Blood Vessel Ligature Mastery
7. Nerve Preparation Essentials
8. Crown Lengthening Procedures
9. Gingival Grafting Techniques: FGG, CTG, VIP-Graft
10. Implant Placement and Stability Evaluation
11. Effective Management of Soft Tissue Complications
12. Medical Considerations in Surgical Dentistry

### Learning Objectives

- Equip clinicians with foundational knowledge in soft tissue management
- Provide comprehensive training under expert supervision
- Foster expertise in preventing complications arising from soft tissue surgery
- Understand and apply practical working knowledge in non-surgical and surgical techniques
- Apply and select specific instruments for minimally invasive tissue management
- Manage common real-life complications associated with Soft Tissue and Surgical Procedures
- Analyze and anticipate surgical challenges
- Perform current simple protocols of soft and hard tissue surgery
- Perform other frequent and common oral surgery procedures in the general dental practice
- Allow participants to refine and update all surgical skills
