

Level 2 Aesthetic Botox & Introduction to Dermal Fillers

16
HOURS
HANDS-ON
CE

FRIDAY & SATURDAY • 8AM-5PM

(See Dates & Locations on inside center & back)

COURSE DESCRIPTION:

This two-day hands-on course builds on foundational training and focuses on advanced Botox injection techniques and introductory dermal filler applications. Participants will learn to treat areas such as bunny lines, brow lift, gummy smile, lip flip, downturned oral commissures, pebbled chin, and platysma bands, as well as dermal filler injection sites for common perioral volume loss concerns including nasolabial folds, marionette lines, oral commissures, and loss of interdental papilla (black triangles).

The program emphasizes essential anatomy, muscle function, sterile technique, and safe injection practices. Attendees will work on their own live patient under instructor guidance, focusing on assessment, facial mapping, and personalized treatment planning.

LEARNING OBJECTIVES:

- Understand indications and mechanisms of botulinum toxins and hyaluronic acid fillers.
- Apply proper sterile techniques for product preparation and handling.
- Perform safe, precise injections through guided hands-on practice.
- Strengthen knowledge of facial anatomy and key landmarks.
- Treat advanced Botox areas: bunny lines (nasalis), eyebrow sculpting / brow lift, gummy smile, lip flip, downturned oral commissures (DAO), pebbled chin (mentalis), platysma bands, and facial slimming (masseters).
- Use dermal fillers for perioral volume loss, nasolabial folds, marionette lines, oral commissures/angular cheilitis, and interdental papilla.
- Review foundational Botox areas: glabella, crow's feet, and forehead.
- Conduct effective consultations and set clear expectations.
- Understand how neuromodulators complement fillers, platelet-rich fibrin, microneedling, and lasers.
- Access treatment forms, consents, and fee structure guidance.

ADDITIONAL DETAILS:

- Prerequisite: Completion of a Level 1 / Foundational Botox course
- Participants are encouraged to bring their own live patient for personalized instructor guidance.
- Botulinum toxin (\$6/unit) and dermal filler (\$300/syringe) are available for purchase and not included in the course registration fee.

2-DAY BOTOX TRAINING

This Comprehensive Hands-On Course Combines Both
Therapeutic and Aesthetic Applications of Botulinum Toxin

Presented by:

Dr. Jarrod Cornehl

Dr. Jarrod Cornehl, a 2002 honors graduate of the University of Texas Health Science Center at San Antonio, is an accomplished restorative and cosmetic dentist and leading aesthetic medicine expert. He is recognized for his successful combination treatments using dermal fillers, toxins, PDO threads, and the application of PRF with laser therapy, as well as his unique approach to TMD pain management.

Dr. Cornehl specializes in non-surgical treatments for TMJ disorders and myofascial pain, utilizing PRF, photobiomodulation, trigger point injections, and neuromodulators. As the founder and lead educator at Regenerative Training Academy, he trains dental and medical professionals in cutting edge PRF techniques for TMD pain relief and facial rejuvenation.

Therapeutic & Aesthetic Botox Training for TMD, Headaches, Migraines & Facial Aesthetics

This comprehensive hands-on course combines both therapeutic and aesthetic applications of botulinum toxin. Attendees will gain the skills to evaluate and treat patients for orofacial pain, TMD, headaches, and migraines while also mastering cosmetic injection techniques for the upper third of the face. These regions are not just aesthetic – they are often the root of head and neck pain patterns in patients with TMD.

- Optimize aesthetic and therapeutic dentistry cases for improved patient outcomes
- Effectively treat and alleviate dental ailments with minimal chair time, enhancing patients' daily lives
- Meet growing patient demand by offering treatments already available at other practices
- Provide convenient, routine treatments during scheduled dental appointments
- Boost patient referrals and encourage repeat business through enhanced service offerings
- Increase profitability by tapping into the multi-billion-dollar injectables industry
- Take your dental practice to the next level—for yourself, your patients, and your business

Level 2 Aesthetic Botox & Introduction to Dermal Fillers

This two-day hands-on course builds on foundational training and focuses on advanced Botox injection techniques and introductory dermal filler applications. Participants will learn to treat areas such as bunny lines, brow lift, gummy smile, lip flip, downturned oral commissures, pebbled chin, and platysma bands, as well as dermal filler injection sites for common perioral volume loss concerns including nasolabial folds, marionette lines, oral commissures, and loss of interdental papilla (black triangles).

2-Day Therapeutic & Aesthetic Botox Training for TMD, Headaches, Migraines & Facial Aesthetics

Presented by:

Dr. Jarrod Cornehl

16
HOURS
HANDS-ON
CE

COURSE DESCRIPTION:

This comprehensive, hands-on training course equips medical and dental professionals with the clinical skills and confidence to treat both the functional and aesthetic concerns of patients using FDA-approved botulinum toxins (Botox®, Dysport®, Xeomin®, Jeuveau®, Daxxify®). The course integrates the therapeutic treatment of TMD, orofacial pain, bruxism, headaches, and migraines with aesthetic procedures targeting the upper third of the face, including the glabella, forehead, and crow's feet.

While Botox is widely known for its cosmetic benefits, its application in facial regions is also a powerful medical treatment—blocking pain signals in the muscles and nerves responsible for chronic head and neck tension. Treating these areas simultaneously enhances facial esthetics and reduces the frequency and severity of migraines and muscle-based facial pain.

Attendees will learn to properly assess, diagnose, plan, and execute botulinum toxin treatments for comprehensive patient outcomes. Live patient injections under one-on-one instructor guidance provide the foundation for immediate clinical implementation.

LEARNING OBJECTIVES:

Therapeutic Applications:

- Diagnose TMD, orofacial pain, and headaches efficiently, distinguishing between muscular and joint-related conditions.
- Understand the mechanism of action of botulinum toxin for pain relief and functional therapy.
- Master safe and effective dosing and injection techniques for muscles involved in bruxism, TMJ disorders, and cervicogenic headaches (e.g., Masseter, Temporalis, Sternocleidomastoid, Trapezius, Splenius Capitus).
- Identify and inject trigger points to provide immediate and long-term relief for myofascial pain.
- Develop and execute personalized treatment plans for TMD, chronic headaches, migraines, and facial pain.
- Combine botulinum toxin and trigger point injections for enhanced therapeutic results.

Aesthetic Applications:

- Perform aesthetic injections for common cosmetic concerns: frown lines, forehead lines, crow's feet, bunny lines, and brow lifts.
- Conduct professional consultations, set realistic expectations, and design custom facial mapping strategies.
- Develop a working knowledge of facial musculature and neurophysiology critical to both aesthetic and therapeutic outcomes.
- Learn how facial esthetic regions (especially in the upper third of the face) relate to head and neck pain and migraine patterns.
- Explore how Botox synergizes with dermal fillers, PRF, microneedling, and laser therapies in comprehensive treatment plans.

2-DAY THERAPEUTIC & AESTHETIC BOTOX TRAINING FOR TMD, HEADACHES, MIGRAINES & FACIAL AESTHETICS COURSE

Check which course you are attending:

- ☐ Seattle, WA • Oct. 30-31, 2026 ☐ Atlanta, GA • Jan. 22-23, 2027 ☐ Minneapolis, MN • Feb. 5-6, 2027 ☐ Tampa, FL • Mar. 5-6, 2027 ☐ Sonoma, CA (Getaway Event) • Mar. 19-21, 2027
- ☐ Cincinnati, OH • Apr. 23-24, 2027 ☐ Ft. Lauderdale, FL • May 14-15, 2027 ☐ Pittsburgh, PA • May 21-22, 2027 ☐ Houston, TX (Level 1 or 2) • Jul. 23-24, 2027
- ☐ Alaskan Cruise Course • Aug. 20-27, 2027 ☐ Anchorage, AK • Aug. 27-28, 2027 ☐ Chicago, IL • Sep. 25-26, 2027 ☐ Portland, OR • Oct. 8-9, 2027 ☐ Dallas, TX • Dec. 3-4, 2027

LEVEL 2 AESTHETIC BOTOX & INTRODUCTION TO DERMAL FILLERS COURSE

- ☐ Tampa, FL • October 2-3, 2026 ☐ Portland, OR • October 10-11, 2026

Across Both Domains:

- Master product handling, reconstitution, and storage for all major FDA-approved botulinum toxins.
- Learn critical safety protocols, contraindications, and complication management.
- Access clinical documentation tools, consent forms, and fee structures for practice integration.

KEY BENEFITS:

- While aesthetic Botox improves facial appearance, its application for migraine and headache relief is strictly therapeutic. These injections block pain signals in the nerves and muscles of the head and neck—leading to reduced headache frequency and intensity. Patients experience less pain, fewer migraines, and enhanced facial esthetics.
- Provide dual-benefit care: reduce patient pain and enhance appearance in a single visit.
- Confidently treat functional pain symptoms through esthetic zones (e.g., glabella, forehead, orbicularis oculi), addressing the root of headaches and migraines.
- Add high-value, high-demand procedures to your practice with minimal chair time and maximum patient satisfaction.

ADDITIONAL DETAILS:

- Live Patient Practice: **Participants are strongly encouraged to bring their own patient to receive guided, personalized instruction.**
- Product Access: Botox is available at \$6/unit for in-course use.
- CE Hours: 16 Hours of Hands-On Continuing Education over 2 Days.
- Eligibility: Open to Dentists, Physicians, PAs, RNs, NPs, and Dental Hygienists.

◆ 2-Day Therapeutic & Aesthetic Botox Training For TMD, Headaches, Migraines & Facial Rejuvenation

Master both the therapeutic and aesthetic applications of botulinum toxin in this hands-on course. Learn to treat TMD, migraines, and facial pain while enhancing appearance—especially in the upper third of the face, where esthetic zones overlap with key pain pathways.

- ✓ Treat pain and improve looks in one visit
- ✓ Practice on live patients
- ✓ 16 CE Hours - Hands-On
- ✓ Botox available at \$6/unit

Open to Dentists, MDs, PAs, NPs, RNs, and RDHs
